CHAPTER _____

An act to amend Sections 41020, 42127, 42238.07, 52052, 52060, 52061, 52062, 52063, 52064, 52066, 52067, 52068, 52069, 52070, 52070.5, 52071, and 52071.5 of, and to add Section 54030 to, the Education Code, relating to schools.

LEGISLATIVE COUNSEL'S DIGEST

SB 344, Padilla. Schools.

(1) Existing law establishes the public school system in this state and, among other things, provides for the establishment of county superintendents of schools, school districts, and charter schools throughout the state. Existing law provides for the provision of instruction at the public elementary and secondary schools maintained by these local educational agencies. Existing law establishes a public school financing system.

This bill would require an audit of a school district to include whether expenditures were in compliance with the regulations related to the expenditure of moneys apportioned on the basis of the number and concentration of unduplicated pupils, as defined.

(2) Existing law requires the Superintendent of Public Instruction, with approval of the State Board of Education, to develop an Academic Performance Index to measure the performance of schools and school districts, especially the academic performance of pupils. Existing law requires a school or school district to demonstrate comparable improvement in academic achievement as measured by the Academic Performance Index by all numerically significant pupil subgroups at the school or school district, as specified.

This bill would add reclassified English learners, as provided, to the list of pupil subgroups concerning which a school or school district is required to demonstrate this improvement, if the subgroup is numerically significant. By adding to the duties of local educational agencies, this bill would impose a state-mandated local program.

(3) Existing law requires a county board of education and a governing board of a school district to annually adopt or revise a local control and accountability plan that aligns with its annual

budget and contains certain elements and that, among other things, was developed in consultation with teachers, principals, administrators, other school personnel, parents, and pupils. Existing law requires a charter for a charter school to include many of the local control and accountability plan elements and requires the charter school to annually update its plan related to those elements.

Existing law, an initiative measure, requires that all children in public schools, with certain exceptions, be taught English by being taught in English, requires that all children be placed in English language classrooms, and requires that children who are English learners be educated through sheltered English immersion during a temporary transition period not normally intended to exceed one year.

This bill would revise provisions regarding local control and accountability plans, primarily in regard to English learners, including requiring the governing board of a school district to include a listing and description of certain expenditures in its local control and accountability plan, as specified. The bill would require that specified templates developed by the State Board of Education ensure that each school district, county superintendent of schools, or charter school that receives supplemental and concentration funds for unduplicated pupils include specified information in its local control and accountability plan. By adding to the duties of local educational agencies, this bill would impose a state-mandated local program.

(4) Existing law requires the governing board of a school district to establish a parent advisory committee to provide advice to the governing board of the school district and the superintendent of the school district, as specified. Existing law additionally requires the governing board of a school district to establish an English learner parent advisory committee if the enrollment of the school district includes at least 15% English learners and the school district enrolls at least 50 pupils who are English learners.

This bill would instead require the governing board of a school district to establish a districtwide parent advisory committee and, as a condition of supplemental state grant funds, if either the enrollment of the school district includes at least 15% English learners or the school district enrolls at least 50 pupils who are English learners, to establish a districtwide English learner parent advisory committee. The bill would require the districtwide English

learner parent advisory committee to advise the governing board on specified tasks, including, among others, the establishment of school district goals and objectives for programs and services for English learners and school district reclassification procedures.

(5) Existing law requires a county superintendent of schools to establish an English learner parent advisory committee if the enrollment of the pupils in the schools and programs operated by the county superintendent of schools includes at least 15% English learners and the schools and programs operated by the county superintendent of schools enroll at least 50 pupils who are English learners.

This bill would instead require a county superintendent of schools to establish an English learner parent advisory committee if either the enrollment of the pupils in the schools and programs operated by the county superintendent of schools includes at least 15% English learners or the schools and programs operated by the county superintendent of schools enroll at least 50 pupils who are English learners.

(6) This bill would incorporate additional changes in Sections 42127, 52060, 52064, and 52066 of the Education Code proposed by both AB 103 and SB 97, to be operative only if this bill and one or both of the other bills are enacted and become effective on or before January 1, 2014, to the extent each bill amends Sections 42127, 52060, 52064, and 52066 of the Education Code, and this bill is enacted last. The bill would also incorporate additional changes in Section 52052 of the Education Code proposed by AB 484, to be operative only if AB 484 and this bill are both enacted and become effective on or before January 1, 2014, both bills amend Section 52052 of the Education Code, and this bill is enacted after AB 484.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 41020 of the Education Code is amended to read:

41020. (a) It is the intent of the Legislature to encourage sound fiscal management practices among local educational agencies for the most efficient and effective use of public funds for the education of children in California by strengthening fiscal accountability at the school district, county, and state levels.

(b) (1) Not later than the first day of May of each fiscal year, each county superintendent of schools shall provide for an audit of all funds under his or her jurisdiction and control and the governing board of each local educational agency shall either provide for an audit of the books and accounts of the local educational agency, including an audit of income and expenditures by source of funds, or make arrangements with the county superintendent of schools having jurisdiction over the local educational agency to provide for that auditing.

(2) A contract to perform the audit of a local educational agency that has a disapproved budget or has received a negative certification on any budget or interim financial report during the current fiscal year or either of the two preceding fiscal years, or for which the county superintendent of schools has otherwise determined that a lack of going concern exists, is not valid unless approved by the responsible county superintendent of schools and the governing board.

(3) If the governing board of a local educational agency has not provided for an audit of the books and accounts of the local educational agency by April 1, the county superintendent of schools having jurisdiction over the local educational agency shall provide for the audit of each local educational agency.

(4) An audit conducted pursuant to this section shall comply fully with the Government Auditing Standards issued by the Comptroller General of the United States.

(5) For purposes of this section, “local educational agency” does not include community colleges.

(c) Each audit conducted in accordance with this section shall include all funds of the local educational agency, including the student body and cafeteria funds and accounts and any other funds under the control or jurisdiction of the local educational agency.

Each audit shall also include an audit of pupil attendance procedures. Each audit shall include a determination of whether funds were expended pursuant to a local control and accountability plan or an approved annual update to a local control and accountability plan pursuant to Article 4.5 (commencing with Section 52060) of Chapter 6.1 of Part 28 of Division 4 and whether expenditures were in compliance with the regulations adopted pursuant to Section 42238.07.

(d) All audit reports for each fiscal year shall be developed and reported using a format established by the Controller after consultation with the Superintendent and the Director of Finance.

(e) (1) The cost of the audits provided for by the county superintendent of schools shall be paid from the county school service fund and the county superintendent of schools shall transfer the pro rata share of the cost chargeable to each school district from school district funds.

(2) The cost of the audit provided for by a governing board of a local educational agency shall be paid from local educational agency funds. The audit of the funds under the jurisdiction and control of the county superintendent of schools shall be paid from the county school service fund.

(f) (1) The audits shall be made by a certified public accountant or a public accountant, licensed by the California Board of Accountancy, and selected by the local educational agency, as applicable, from a directory of certified public accountants and public accountants deemed by the Controller as qualified to conduct audits of local educational agencies, which shall be published by the Controller not later than December 31 of each year.

(2) Commencing with the 2003–04 fiscal year and except as provided in subdivision (d) of Section 41320.1, it is unlawful for a public accounting firm to provide audit services to a local educational agency if the lead audit partner, or coordinating audit partner, having primary responsibility for the audit, or the audit partner responsible for reviewing the audit, has performed audit services for that local educational agency in each of the six previous fiscal years. The Education Audits Appeal Panel may waive this requirement if the panel finds that no otherwise eligible auditor is available to perform the audit.

(3) It is the intent of the Legislature that, notwithstanding paragraph (2), the rotation within public accounting firms conform

to provisions of the federal Sarbanes-Oxley Act of 2002 (Public Law 107-204; 15 U.S.C. Sec. 7201 et seq.), and upon release of the report required by the act of the Comptroller General of the United States addressing the mandatory rotation of registered public accounting firms, the Legislature intends to reconsider the provisions of paragraph (2). In determining which certified public accountants and public accountants shall be included in the directory, the Controller shall use the following criteria:

(A) The certified public accountants or public accountants shall be in good standing as certified by the California Board of Accountancy.

(B) The certified public accountants or public accountants, as a result of a quality control review conducted by the Controller pursuant to Section 14504.2, shall not have been found to have conducted an audit in a manner constituting noncompliance with subdivision (a) of Section 14503.

(g) (1) The auditor's report shall include each of the following:

(A) A statement that the audit was conducted pursuant to standards and procedures developed in accordance with Chapter 3 (commencing with Section 14500) of Part 9 of Division 1 of Title 1.

(B) A summary of audit exceptions and management improvement recommendations.

(C) Each audit of a local educational agency shall include an evaluation by the auditor on whether there is substantial doubt about the ability of the local educational agency to continue as a going concern for a reasonable period of time. This evaluation shall be based on the Statement on Auditing Standards (SAS) No. 59, as issued by the AICPA regarding disclosure requirements relating to the ability of the entity to continue as a going concern.

(2) To the extent possible, a description of correction or plan of correction shall be incorporated in the audit report, describing the specific actions that are planned to be taken, or that have been taken, to correct the problem identified by the auditor. The descriptions of specific actions to be taken or that have been taken shall not solely consist of general comments such as "will implement," "accepted the recommendation," or "will discuss at a later date."

(h) Not later than December 15, a report of each local educational agency audit for the preceding fiscal year shall be filed

with the county superintendent of schools of the county in which the local educational agency is located, the department, and the Controller. The Superintendent shall make any adjustments necessary in future apportionments of all state funds, to correct any audit exceptions revealed by those audit reports.

(i) (1) Commencing with the 2002–03 audit of local educational agencies pursuant to this section and subdivision (d) of Section 41320.1, each county superintendent of schools shall be responsible for reviewing the audit exceptions contained in an audit of a local educational agency under his or her jurisdiction related to attendance, inventory of equipment, internal control, and any miscellaneous items, and determining whether the exceptions have been either corrected or an acceptable plan of correction has been developed.

(2) Commencing with the 2004–05 audit of local educational agencies pursuant to this section and subdivision (d) of Section 41320.1, each county superintendent of schools shall include in the review of audit exceptions performed pursuant to this subdivision those audit exceptions related to use of instructional materials program funds, teacher misassignments pursuant to Section 44258.9, information reported on the school accountability report card required pursuant to Section 33126 and shall determine whether the exceptions are either corrected or an acceptable plan of correction has been developed.

(j) Upon submission of the final audit report to the governing board of each local educational agency and subsequent receipt of the audit by the county superintendent of schools having jurisdiction over the local educational agency, the county office of education shall do all of the following:

(1) Review audit exceptions related to attendance, inventory of equipment, internal control, and other miscellaneous exceptions. Attendance exceptions or issues shall include, but not be limited to, those related to local control funding formula allocations pursuant to Section 42238.02, as implemented by Section 42238.03, and independent study.

(2) If a description of the correction or plan of correction has not been provided as part of the audit required by this section, then the county superintendent of schools shall notify the local educational agency and request the governing board of the local educational agency to provide to the county superintendent of

schools a description of the corrections or plan of correction by March 15.

(3) Review the description of correction or plan of correction and determine its adequacy. If the description of the correction or plan of correction is not adequate, the county superintendent of schools shall require the local educational agency to resubmit that portion of its response that is inadequate.

(k) Each county superintendent of schools shall certify to the Superintendent and the Controller, not later than May 15, that his or her staff has reviewed all audits of local educational agencies under his or her jurisdiction for the prior fiscal year, that all exceptions that the county superintendent was required to review were reviewed, and that all of those exceptions, except as otherwise noted in the certification, have been corrected by the local educational agency or that an acceptable plan of correction has been submitted to the county superintendent of schools. In addition, the county superintendent shall identify, by local educational agency, any attendance-related audit exception or exceptions involving state funds, and require the local educational agency to which the audit exceptions were directed to submit appropriate reporting forms for processing by the Superintendent.

(l) In the audit of a local educational agency for a subsequent year, the auditor shall review the correction or plan or plans of correction submitted by the local educational agency to determine if the exceptions have been resolved. If not, the auditor shall immediately notify the appropriate county office of education and the department and restate the exception in the audit report. After receiving that notification, the department shall either consult with the local educational agency to resolve the exception or require the county superintendent of schools to follow up with the local educational agency.

(m) (1) The Superintendent shall be responsible for ensuring that local educational agencies have either corrected or developed plans of correction for any one or more of the following:

(A) All federal and state compliance audit exceptions identified in the audit.

(B) Any exceptions that the county superintendent certifies as of May 15 have not been corrected.

(C) Any repeat audit exceptions that are not assigned to a county superintendent to correct.

(2) In addition, the Superintendent shall be responsible for ensuring that county superintendents of schools and each county board of education that serves as the governing board of a local educational agency either correct all audit exceptions identified in the audits of county superintendents of schools and of the local educational agencies for which the county boards of education serve as the governing boards or develop acceptable plans of correction for those exceptions.

(3) The Superintendent shall report annually to the Controller on his or her actions to ensure that school districts, county superintendents of schools, and each county board of education that serves as the governing board of a school district have either corrected or developed plans of correction for any of the exceptions noted pursuant to paragraph (1).

(n) To facilitate correction of the exceptions identified by the audits issued pursuant to this section, commencing with 2002–03 audits pursuant to this section, the Controller shall require auditors to categorize audit exceptions in each audit report in a manner that will make it clear to both the county superintendent of schools and the Superintendent which exceptions they are responsible for ensuring the correction of by a local educational agency. In addition, the Controller annually shall select a sampling of county superintendents of schools and perform a followup of the audit resolution process of those county superintendents of schools and report the results of that followup to the Superintendent and the county superintendents of schools that were reviewed.

(o) County superintendents of schools shall adjust subsequent local property tax requirements to correct audit exceptions relating to local educational agency tax rates and tax revenues.

(p) If a governing board or county superintendent of schools fails or is unable to make satisfactory arrangements for the audit pursuant to this section, the Controller shall make arrangements for the audit and the cost of the audit shall be paid from local educational agency funds or the county school service fund, as the case may be.

(q) Audits of regional occupational centers and programs are subject to the provisions of this section.

(r) This section does not authorize examination of, or reports on, the curriculum used or provided for in any local educational agency.

(s) Notwithstanding any other law, an auditing, management, or other consulting service to be provided to a local educational agency by a certified public accounting firm while the certified public accounting firm is performing an audit of the agency pursuant to this section must be in accord with Government Accounting Standards, Amendment No. 3, as published by the United States General Accounting Office.

SEC. 2. Section 42127 of the Education Code is amended to read:

42127. (a) On or before July 1 of each year, the governing board of each school district shall accomplish the following:

(1) Hold a public hearing on the budget to be adopted for the subsequent fiscal year. The budget to be adopted shall be prepared in accordance with Section 42126. The agenda for that hearing shall be posted at least 72 hours before the public hearing and shall include the location where the budget will be available for public inspection.

(A) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, each school district budget shall project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year and shall maintain staffing and program levels commensurate with that level.

(B) For the 2011–12 fiscal year, the school district shall not be required to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(2) Adopt a budget. Not later than five days after that adoption or by July 1, whichever occurs first, the governing board of the school district shall file that budget with the county superintendent of schools. The budget and supporting data shall be maintained and made available for public review. If the governing board of the school district does not want all or a portion of the property tax requirement levied for the purpose of making payments for the interest and redemption charges on indebtedness as described in paragraph (1) or (2) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, the budget shall include a statement of the amount or portion for which a levy shall not be made. For the 2014–15 fiscal year and each fiscal year thereafter, the governing board of the school district shall not adopt a budget before the governing board of the school district adopts a local

control and accountability plan, if an existing local control and accountability plan or annual update to a local control and accountability plan is not effective for the budget year. The governing board of a school district shall not adopt a budget that does not include the expenditures necessary to implement the local control and accountability plan or the annual update to a local control and accountability plan that is effective during the subsequent fiscal year.

(b) The county superintendent of schools may accept changes in any statement included in the budget, pursuant to subdivision (a), of the amount or portion for which a property tax levy shall not be made. The county superintendent of schools or the county auditor shall compute the actual amounts to be levied on the property tax rolls of the school district for purposes that exceed apportionments to the school district pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of Division 1 of the Revenue and Taxation Code. Each school district shall provide all data needed by the county superintendent of schools or the county auditor to compute the amounts. On or before August 15, the county superintendent of schools shall transmit the amounts computed to the county auditor who shall compute the tax rates necessary to produce the amounts. On or before September 1, the county auditor shall submit the rate computed to the board of supervisors for adoption.

(c) The county superintendent of schools shall do all of the following:

(1) Examine the adopted budget to determine whether it complies with the standards and criteria adopted by the state board pursuant to Section 33127 for application to final local educational agency budgets. The county superintendent of schools shall identify, if necessary, technical corrections that are required to be made to bring the budget into compliance with those standards and criteria.

(2) Determine whether the adopted budget will allow the school district to meet its financial obligations during the fiscal year and is consistent with a financial plan that will enable the school district to satisfy its multiyear financial commitments. In addition to his or her own analysis of the budget of each school district, the county superintendent of schools shall review and consider studies, reports, evaluations, or audits of the school district that were commissioned

by the school district, the county superintendent of schools, the Superintendent, and state control agencies and that contain evidence that the school district is showing fiscal distress under the standards and criteria adopted in Section 33127 or that contain a finding by an external reviewer that more than 3 of the 15 most common predictors of a school district needing intervention, as determined by the County Office Fiscal Crisis and Management Assistance Team, are present. The county superintendent of schools shall either conditionally approve or disapprove a budget that does not provide adequate assurance that the school district will meet its current and future obligations and resolve any problems identified in studies, reports, evaluations, or audits described in this paragraph.

(3) Determine whether the adopted budget includes the expenditures necessary to implement the local control and accountability plan or annual update to the local control and accountability plan approved by the county superintendent of schools and whether those expenditures comply with the regulations adopted pursuant to Section 42238.07.

(d) On or before August 15, the county superintendent of schools shall approve, conditionally approve, or disapprove the adopted budget for each school district. For the 2014–15 fiscal year and each fiscal year thereafter, the county superintendent of schools shall disapprove a budget if the county superintendent of schools determines that the budget does not include the expenditures necessary to implement a local control and accountability plan or an annual update to the local control and accountability plan approved by the county superintendent of schools or does not comply with the regulations adopted pursuant to Section 42238.07. If a school district does not submit a budget to the county superintendent of schools, the county superintendent of schools shall develop, at school district expense, a budget for that school district by September 15 and transmit that budget to the governing board of the school district. The budget prepared by the county superintendent of schools shall be deemed adopted, unless the county superintendent of schools approves any modifications made by the governing board of the school district. The approved budget shall be used as a guide for the school district's priorities. The Superintendent shall review and certify the budget approved by the county. If, pursuant to the review conducted pursuant to

subdivision (c), the county superintendent of schools determines that the adopted budget for a school district does not satisfy paragraph (1) or (2) of that subdivision, he or she shall conditionally approve or disapprove the budget and, not later than August 15, transmit to the governing board of the school district, in writing, his or her recommendations regarding revision of the budget and the reasons for those recommendations, including, but not limited to, the amounts of any budget adjustments needed before he or she can approve that budget. The county superintendent of schools may assign a fiscal adviser to assist the school district to develop a budget in compliance with those revisions. In addition, the county superintendent of schools may appoint a committee to examine and comment on the superintendent's review and recommendations, subject to the requirement that the committee report its findings to the county superintendent of schools no later than August 20. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent of schools, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(e) On or before September 8, the governing board of the school district shall revise the adopted budget to reflect changes in projected income or expenditures subsequent to July 1, and to include any response to the recommendations of the county superintendent of schools, shall adopt the revised budget, and shall file the revised budget with the county superintendent of schools. Before revising the budget, the governing board of the school district shall hold a public hearing regarding the proposed revisions, to be conducted in accordance with Section 42103. In addition, if the adopted budget is disapproved pursuant to subdivision (d), the governing board of the school district and the county superintendent of schools shall review the disapproval and the recommendations of the county superintendent of schools regarding revision of the budget at the public hearing. The revised budget and supporting data shall be maintained and made available for public review.

(1) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, each school district budget shall project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year and shall maintain staffing and program levels commensurate with that level.

(2) For the 2011–12 fiscal year, the school district shall not be required to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(f) On or before September 22, the county superintendent of schools shall provide a list to the Superintendent identifying all school districts for which budgets may be disapproved.

(g) The county superintendent of schools shall examine the revised budget to determine whether it (1) complies with the standards and criteria adopted by the state board pursuant to Section 33127 for application to final local educational agency budgets, (2) allows the school district to meet its financial obligations during the fiscal year, (3) satisfies all conditions established by the county superintendent of schools in the case of a conditionally approved budget, and (4) is consistent with a financial plan that will enable the school district to satisfy its multiyear financial commitments, and, not later than October 8, shall approve or disapprove the revised budget. If the county superintendent of schools disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 42127.1, unless the governing board of the school district and the county superintendent of schools agree to waive the requirement that a budget review committee be formed and the department approves the waiver after determining that a budget review committee is not necessary. Upon the grant of a waiver, the county superintendent of schools immediately has the authority and responsibility provided in Section 42127.3. Upon approving a waiver of the budget review committee, the department shall ensure that a balanced budget is adopted for the school district by November 30. If no budget is adopted by November 30, the Superintendent may adopt a budget for the school district. The Superintendent shall report to the Legislature and the Director of Finance by December 10 if any school district, including a school district that has received a waiver of the budget review committee process, does not have an adopted budget by November 30. This report shall include the reasons why a budget has not been adopted

by the deadline, the steps being taken to finalize budget adoption, the date the adopted budget is anticipated, and whether the Superintendent has or will exercise his or her authority to adopt a budget for the school district. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent of schools, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(h) Not later than October 8, the county superintendent of schools shall submit a report to the Superintendent identifying all school districts for which budgets have been disapproved or budget review committees waived. The report shall include a copy of the written response transmitted to each of those school districts pursuant to subdivision (d).

(i) Notwithstanding any other provision of this section, the budget review for a school district shall be governed by paragraphs (1), (2), and (3), rather than by subdivisions (e) and (g), if the governing board of the school district so elects and notifies the county superintendent of schools in writing of that decision, not later than October 31 of the immediately preceding calendar year. On or before July 1, the governing board of a school district for which the budget review is governed by this subdivision, rather than by subdivisions (e) and (g), shall conduct a public hearing regarding its proposed budget in accordance with Section 42103.

(1) If the adopted budget of a school district is disapproved pursuant to subdivision (d), on or before September 8, the governing board of the school district, in conjunction with the county superintendent of schools, shall review the superintendent's recommendations at a regular meeting of the governing board of the school district and respond to those recommendations. The response shall include any revisions to the adopted budget and other proposed actions to be taken, if any, as a result of those recommendations.

(2) On or before September 22, the county superintendent of schools shall provide a list to the Superintendent identifying all school districts for which a budget may be tentatively disapproved.

(3) Not later than October 8, after receiving the response required under paragraph (1), the county superintendent of schools shall review that response and either approve or disapprove the budget. If the county superintendent of schools disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 42127.1, unless the governing board of the school district and the county superintendent of schools agree to waive the requirement that a budget review committee be formed and the department approves the waiver after determining that a budget review committee is not necessary. Upon the grant of a waiver, the county superintendent has the authority and responsibility provided to a budget review committee in Section 42127.3. Upon approving a waiver of the budget review committee, the department shall ensure that a balanced budget is adopted for the school district by November 30. The Superintendent shall report to the Legislature and the Director of Finance by December 10 if any school district, including a school district that has received a waiver of the budget review committee process, does not have an adopted budget by November 30. This report shall include the reasons why a budget has not been adopted by the deadline, the steps being taken to finalize budget adoption, and the date the adopted budget is anticipated. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent of schools, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(4) Not later than 45 days after the Governor signs the annual Budget Act, the school district shall make available for public review any revisions in revenues and expenditures that it has made to its budget to reflect the funding made available by that Budget Act.

(j) Any school district for which the county board of education serves as the governing board of the school district is not subject to subdivisions (c) to (h), inclusive, but is governed instead by the budget procedures set forth in Section 1622.

SEC. 2.5. Section 42127 of the Education Code is amended to read:

42127. (a) On or before July 1 of each year, the governing board of each school district shall accomplish the following:

(1) Hold a public hearing on the budget to be adopted for the subsequent fiscal year. The budget to be adopted shall be prepared in accordance with Section 42126. The agenda for that hearing shall be posted at least 72 hours before the public hearing and shall include the location where the budget will be available for public inspection.

(A) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, each school district budget shall project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year and shall maintain staffing and program levels commensurate with that level.

(B) For the 2011–12 fiscal year, the school district shall not be required to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(2) Adopt a budget. Not later than five days after that adoption or by July 1, whichever occurs first, the governing board of the school district shall file that budget with the county superintendent of schools. The budget and supporting data shall be maintained and made available for public review. If the governing board of the school district does not want all or a portion of the property tax requirement levied for the purpose of making payments for the interest and redemption charges on indebtedness as described in paragraph (1) or (2) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, the budget shall include a statement of the amount or portion for which a levy shall not be made. For the 2014–15 fiscal year and each fiscal year thereafter, the governing board of the school district shall not adopt a budget before the governing board of the school district adopts a local control and accountability plan, if an existing local control and accountability plan or annual update to a local control and accountability plan is not effective for the budget year. The governing board of a school district shall not adopt a budget that does not include the expenditures necessary to implement the local control and accountability plan or the annual update to a local

control and accountability plan that is effective during the subsequent fiscal year.

(b) The county superintendent of schools may accept changes in any statement included in the budget, pursuant to subdivision (a), of the amount or portion for which a property tax levy shall not be made. The county superintendent of schools or the county auditor shall compute the actual amounts to be levied on the property tax rolls of the school district for purposes that exceed apportionments to the school district pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of Division 1 of the Revenue and Taxation Code. Each school district shall provide all data needed by the county superintendent of schools or the county auditor to compute the amounts. On or before August 15, the county superintendent of schools shall transmit the amounts computed to the county auditor who shall compute the tax rates necessary to produce the amounts. On or before September 1, the county auditor shall submit the rate computed to the board of supervisors for adoption.

(c) The county superintendent of schools shall do all of the following:

(1) Examine the adopted budget to determine whether it complies with the standards and criteria adopted by the state board pursuant to Section 33127 for application to final local educational agency budgets. The county superintendent of schools shall identify, if necessary, technical corrections that are required to be made to bring the budget into compliance with those standards and criteria.

(2) Determine whether the adopted budget will allow the school district to meet its financial obligations during the fiscal year and is consistent with a financial plan that will enable the school district to satisfy its multiyear financial commitments. In addition to his or her own analysis of the budget of each school district, the county superintendent of schools shall review and consider studies, reports, evaluations, or audits of the school district that were commissioned by the school district, the county superintendent of schools, the Superintendent, and state control agencies and that contain evidence that the school district is showing fiscal distress under the standards and criteria adopted in Section 33127 or that contain a finding by an external reviewer that more than 3 of the 15 most common predictors of a school district needing intervention, as

determined by the County Office Fiscal Crisis and Management Assistance Team, are present. The county superintendent of schools shall either conditionally approve or disapprove a budget that does not provide adequate assurance that the school district will meet its current and future obligations and resolve any problems identified in studies, reports, evaluations, or audits described in this paragraph.

(3) Determine whether the adopted budget includes the expenditures necessary to implement the local control and accountability plan or annual update to the local control and accountability plan approved by the county superintendent of schools and whether those expenditures comply with the regulations adopted pursuant to Section 42238.07.

(d) (1) On or before August 15, the county superintendent of schools shall approve, conditionally approve, or disapprove the adopted budget for each school district. For the 2014–15 fiscal year and each fiscal year thereafter, the county superintendent of schools shall disapprove a budget if the county superintendent of schools determines that the budget does not include the expenditures necessary to implement a local control and accountability plan or an annual update to the local control and accountability plan approved by the county superintendent of schools or does not comply with the regulations adopted pursuant to Section 42238.07. If a school district does not submit a budget to the county superintendent of schools, the county superintendent of schools shall develop, at school district expense, a budget for that school district by September 15 and transmit that budget to the governing board of the school district. The budget prepared by the county superintendent of schools shall be deemed adopted, unless the county superintendent of schools approves any modifications made by the governing board of the school district. The approved budget shall be used as a guide for the school district's priorities. The Superintendent shall review and certify the budget approved by the county. If, pursuant to the review conducted pursuant to subdivision (c), the county superintendent of schools determines that the adopted budget for a school district does not satisfy paragraph (1), (2), or (3) of that subdivision, he or she shall conditionally approve or disapprove the budget and, not later than August 15, transmit to the governing board of the school district, in writing, his or her recommendations regarding

revision of the budget and the reasons for those recommendations, including, but not limited to, the amounts of any budget adjustments needed before he or she can approve that budget. The county superintendent of schools may assign a fiscal adviser to assist the school district to develop a budget in compliance with those revisions. In addition, the county superintendent of schools may appoint a committee to examine and comment on the superintendent's review and recommendations, subject to the requirement that the committee report its findings to the county superintendent of schools no later than August 20. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent of schools, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(2) Notwithstanding any other provision of this article, for the 2014–15 fiscal year and each fiscal year thereafter, the budget shall not be adopted or approved by the county superintendent of schools before a local control and accountability plan or update to an existing local control and accountability plan for the budget year is approved.

(e) On or before September 8, the governing board of the school district shall revise the adopted budget to reflect changes in projected income or expenditures subsequent to July 1, and to include any response to the recommendations of the county superintendent of schools, shall adopt the revised budget, and shall file the revised budget with the county superintendent of schools. Before revising the budget, the governing board of the school district shall hold a public hearing regarding the proposed revisions, to be conducted in accordance with Section 42103. In addition, if the adopted budget is disapproved pursuant to subdivision (d), the governing board of the school district and the county superintendent of schools shall review the disapproval and the recommendations of the county superintendent of schools regarding revision of the budget at the public hearing. The revised budget and supporting data shall be maintained and made available for public review.

(1) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, each school district budget shall project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year and shall maintain staffing and program levels commensurate with that level.

(2) For the 2011–12 fiscal year, the school district shall not be required to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(f) On or before September 22, the county superintendent of schools shall provide a list to the Superintendent identifying all school districts for which budgets may be disapproved.

(g) (1) The county superintendent of schools shall examine the revised budget to determine whether it (1) complies with the standards and criteria adopted by the state board pursuant to Section 33127 for application to final local educational agency budgets, (2) allows the school district to meet its financial obligations during the fiscal year, (3) satisfies all conditions established by the county superintendent of schools in the case of a conditionally approved budget, and (4) is consistent with a financial plan that will enable the school district to satisfy its multiyear financial commitments, and, not later than October 8, shall approve or disapprove the revised budget. If the county superintendent of schools disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 42127.1, unless the governing board of the school district and the county superintendent of schools agree to waive the requirement that a budget review committee be formed and the department approves the waiver after determining that a budget review committee is not necessary. Upon the grant of a waiver, the county superintendent of schools immediately has the authority and responsibility provided in Section 42127.3. Upon approving a waiver of the budget review committee, the department shall ensure that a balanced budget is adopted for the school district by November 30. If no budget is adopted by November 30, the Superintendent may adopt a budget for the school district. The Superintendent shall report to the Legislature and the Director of Finance by December 10 if any school district, including a school district that has received a waiver of the budget review committee process, does not have an adopted budget by November 30. This report shall include the reasons why a budget has not been adopted

by the deadline, the steps being taken to finalize budget adoption, the date the adopted budget is anticipated, and whether the Superintendent has or will exercise his or her authority to adopt a budget for the school district. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent of schools, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(2) Notwithstanding any other law, for the 2014–15 fiscal year and each fiscal year thereafter, if the county superintendent of schools disapproves the budget for the sole reason that the county superintendent of schools has not approved a local control and accountability plan or an annual update to the local control and accountability plan filed by the school district pursuant to Section 52061, the county superintendent of schools shall not call for the formation of a budget review committee pursuant to Section 42127.1.

(h) Not later than October 8, the county superintendent of schools shall submit a report to the Superintendent identifying all school districts for which budgets have been disapproved or budget review committees waived. The report shall include a copy of the written response transmitted to each of those school districts pursuant to paragraph (1) of subdivision (d).

(i) Notwithstanding any other provision of this section, the budget review for a school district shall be governed by paragraphs (1), (2), and (3), rather than by subdivisions (e) and (g), if the governing board of the school district so elects and notifies the county superintendent of schools in writing of that decision, not later than October 31 of the immediately preceding calendar year. On or before July 1, the governing board of a school district for which the budget review is governed by this subdivision, rather than by subdivisions (e) and (g), shall conduct a public hearing regarding its proposed budget in accordance with Section 42103.

(1) If the adopted budget of a school district is disapproved pursuant to subdivision (d), on or before September 8, the governing board of the school district, in conjunction with the

county superintendent of schools, shall review the superintendent's recommendations at a regular meeting of the governing board of the school district and respond to those recommendations. The response shall include any revisions to the adopted budget and other proposed actions to be taken, if any, as a result of those recommendations.

(2) On or before September 22, the county superintendent of schools shall provide a list to the Superintendent identifying all school districts for which a budget may be tentatively disapproved.

(3) Not later than October 8, after receiving the response required under paragraph (1), the county superintendent of schools shall review that response and either approve or disapprove the budget. Except as provided in paragraph (2) of subdivision (g), if the county superintendent of schools disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 42127.1, unless the governing board of the school district and the county superintendent of schools agree to waive the requirement that a budget review committee be formed and the department approves the waiver after determining that a budget review committee is not necessary. Upon the grant of a waiver, the county superintendent has the authority and responsibility provided to a budget review committee in Section 42127.3. Upon approving a waiver of the budget review committee, the department shall ensure that a balanced budget is adopted for the school district by November 30. The Superintendent shall report to the Legislature and the Director of Finance by December 10 if any school district, including a school district that has received a waiver of the budget review committee process, does not have an adopted budget by November 30. This report shall include the reasons why a budget has not been adopted by the deadline, the steps being taken to finalize budget adoption, and the date the adopted budget is anticipated. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent of schools, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(4) Not later than 45 days after the Governor signs the annual Budget Act, the school district shall make available for public review any revisions in revenues and expenditures that it has made to its budget to reflect the funding made available by that Budget Act.

(j) Any school district for which the county board of education serves as the governing board of the school district is not subject to subdivisions (c) to (h), inclusive, but is governed instead by the budget procedures set forth in Section 1622.

SEC. 3. Section 42238.07 of the Education Code is amended to read:

42238.07. (a) On or before January 31, 2014, the state board shall adopt regulations that govern the expenditure of funds apportioned on the basis of the number and concentration of unduplicated pupils pursuant to Sections 2574, 2575, 42238.02, and 42238.03. The regulations shall include, but are not limited to, provisions that do all of the following:

(1) Require a school district, county office of education, or charter school to increase or improve services for unduplicated pupils in proportion to the increase in funds apportioned on the basis of the number and concentration of unduplicated pupils in the school district, county office of education, or charter school.

(2) Authorize a school district, county office of education, or charter school to use funds apportioned on the basis of the number and concentration of unduplicated pupils for schoolwide purposes. The regulations governing the expenditures of moneys for schoolwide purposes shall not be more restrictive than the restrictions provided for in Title I of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.).

(3) Authorize a school district or county office of education to use of funds apportioned on the basis of the number and concentration of unduplicated pupils, for school districts, for districtwide purposes, or, for county offices of education, for countywide purposes.

(b) The state board may adopt emergency regulations for purposes of this section.

SEC. 4. Section 52052 of the Education Code is amended to read:

52052. (a) (1) The Superintendent, with approval of the state board, shall develop an Academic Performance Index (API), to

measure the performance of schools and school districts, especially the academic performance of pupils.

(2) A school or school district shall demonstrate comparable improvement in academic achievement as measured by the API by all numerically significant pupil subgroups at the school or school district, including:

- (A) Ethnic subgroups.
- (B) Socioeconomically disadvantaged pupils.
- (C) English learners.
- (D) Pupils with disabilities.
- (E) Foster youth.

(F) Reclassified English learners. The inclusion of reclassified English learners in the API shall, at a minimum, be consistent with the manner in which reclassified English learners are included in the determination of adequate yearly progress, as required by Section 6311(b)(2)(B) of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.).

(3) (A) For purposes of this section, a numerically significant pupil subgroup is one that consists of at least 30 pupils, each of whom has a valid test score.

(B) Notwithstanding subparagraph (A), for a subgroup of pupils who are foster youth, a numerically significant pupil subgroup is one that consists of at least 15 pupils.

(C) For a school or school district with an API score that is based on no fewer than 11 and no more than 99 pupils with valid test scores, numerically significant pupil subgroups shall be defined by the Superintendent, with approval by the state board.

(4) (A) The API shall consist of a variety of indicators currently reported to the department, including, but not limited to, the results of the achievement test administered pursuant to Section 60640, attendance rates for pupils in elementary schools, middle schools, and secondary schools, and the graduation rates for pupils in secondary schools.

(B) The Superintendent, with the approval of the state board, may also incorporate into the API the rates at which pupils successfully promote from one grade to the next in middle school and high school, and successfully matriculate from middle school to high school.

(C) Graduation rates for pupils in secondary schools shall be calculated for the API as follows:

(i) Four-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be three school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (ii).

(ii) The number of pupils entering grade 9 for the first time in the school year three school years before the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was three school years before the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was three school years before the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(iii) Five-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be four school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (iv).

(iv) The number of pupils entering grade 9 for the first time in the school year four years before the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was four school years before the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was four years before the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(v) Six-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be five school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (vi).

(vi) The number of pupils entering grade 9 for the first time in the school year five years before the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was five school years before the current school year and the date of graduation, less the number of pupils who transferred out of the

school between the school year that was five years before the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(D) The inclusion of five- and six-year graduation rates for pupils in secondary schools shall meet the following requirements:

(i) Schools shall be granted one-half the credit in their API scores for graduating pupils in five years that they are granted for graduating pupils in four years.

(ii) Schools and school districts shall be granted one-quarter the credit in their API scores for graduating pupils in six years that they are granted for graduating pupils in four years.

(iii) Notwithstanding clauses (i) and (ii), schools and school districts shall be granted full credit in their API scores for graduating in five or six years a pupil with disabilities who graduates in accordance with his or her individualized education program.

(E) The pupil data collected for the API that comes from the achievement test administered pursuant to Section 60640 and the high school exit examination administered pursuant to Section 60851, when fully implemented, shall be disaggregated by special education status, English learners, socioeconomic status, gender, and ethnic group. Only the test scores of pupils who were counted as part of the enrollment in the annual data collection of the California Basic Educational Data System for the current fiscal year and who were continuously enrolled during that year may be included in the test result reports in the API score of the school.

(F) (i) Commencing with the baseline API calculation in 2016, and for each year thereafter, results of the achievement test and other tests specified in subdivision (b) shall constitute no more than 60 percent of the value of the index for secondary schools.

(ii) In addition to the elements required by this paragraph, the Superintendent, with approval of the state board, may incorporate into the index for secondary schools valid, reliable, and stable measures of pupil preparedness for postsecondary education and career.

(G) Results of the achievement test and other tests specified in subdivision (b) shall constitute at least 60 percent of the value of the index for primary schools and middle schools.

(H) It is the intent of the Legislature that the state's system of public school accountability be more closely aligned with both the

public's expectations for public education and the workforce needs of the state's economy. It is therefore necessary that the accountability system evolve beyond its narrow focus on pupil test scores to encompass other valuable information about school performance, including, but not limited to, pupil preparedness for college and career, as well as the high school graduation rates already required by law.

(I) The Superintendent shall annually determine the accuracy of the graduation rate data. Notwithstanding any other law, graduation rates for pupils in dropout recovery high schools shall not be included in the API. For purposes of this subparagraph, "dropout recovery high school" means a high school in which 50 percent or more of its pupils have been designated as dropouts pursuant to the exit/withdrawal codes developed by the department or left a school and were not otherwise enrolled in a school for a period of at least 180 days.

(J) To complement the API, the Superintendent, with the approval of the state board, may develop and implement a program of school quality review that features locally convened panels to visit schools, observe teachers, interview pupils, and examine pupil work, if an appropriation for this purpose is made in the annual Budget Act.

(K) The Superintendent shall annually provide to local educational agencies and the public a transparent and understandable explanation of the individual components of the API and their relative values within the API.

(L) An additional element chosen by the Superintendent and the state board for inclusion in the API pursuant to this paragraph shall not be incorporated into the API until at least one full school year after the state board's decision to include the element into the API.

(b) Pupil scores from the following tests, when available and when found to be valid and reliable for this purpose, shall be incorporated into the API:

(1) The standards-based achievement tests provided for in Section 60642.5.

(2) The high school exit examination.

(c) Based on the API, the Superintendent shall develop, and the state board shall adopt, expected annual percentage growth targets for all schools based on their API baseline score from the previous

year. Schools are expected to meet these growth targets through effective allocation of available resources. For schools below the statewide API performance target adopted by the state board pursuant to subdivision (d), the minimum annual percentage growth target shall be 5 percent of the difference between the actual API score of a school and the statewide API performance target, or one API point, whichever is greater. Schools at or above the statewide API performance target shall have, as their growth target, maintenance of their API score above the statewide API performance target. However, the state board may set differential growth targets based on grade level of instruction and may set higher growth targets for the lowest performing schools because they have the greatest room for improvement. To meet its growth target, a school shall demonstrate that the annual growth in its API is equal to or more than its schoolwide annual percentage growth target and that all numerically significant pupil subgroups, as defined in subdivision (a), are making comparable improvement.

(d) Upon adoption of state performance standards by the state board, the Superintendent shall recommend, and the state board shall adopt, a statewide API performance target that includes consideration of performance standards and represents the proficiency level required to meet the state performance target.

(e) (1) A school or school district with 11 to 99 pupils with valid test scores shall receive an API score with an asterisk that indicates less statistical certainty than API scores based on 100 or more test scores.

(2) A school or school district annually shall receive an API score, unless the Superintendent determines that an API score would be an invalid measure of the performance of the school or school district for one or more of the following reasons:

(A) Irregularities in testing procedures occurred.

(B) The data used to calculate the API score of the school or school district are not representative of the pupil population at the school or school district.

(C) Significant demographic changes in the pupil population render year-to-year comparisons of pupil performance invalid.

(D) The department discovers or receives information indicating that the integrity of the API score has been compromised.

(E) Insufficient pupil participation in the assessments included in the API.

(3) If a school or school district has fewer than 100 pupils with valid test scores, the calculation of the API or adequate yearly progress pursuant to the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.) and federal regulations may be calculated over more than one annual administration of the tests administered pursuant to Section 60640 and the high school exit examination administered pursuant to Section 60851, consistent with regulations adopted by the state board.

(f) Only schools with 100 or more test scores contributing to the API may be included in the API rankings.

(g) The Superintendent, with the approval of the state board, shall develop an alternative accountability system for schools under the jurisdiction of a county board of education or a county superintendent of schools, community day schools, nonpublic, nonsectarian schools pursuant to Section 56366, and alternative schools serving high-risk pupils, including continuation high schools and opportunity schools. Schools in the alternative accountability system may receive an API score, but shall not be included in the API rankings.

(h) For purposes of this section, county offices of education shall be considered school districts.

SEC. 4.5. Section 52052 of the Education Code is amended to read:

52052. (a) (1) The Superintendent, with approval of the state board, shall develop an Academic Performance Index (API), to measure the performance of schools and school districts, especially the academic performance of pupils.

(2) A school or school district shall demonstrate comparable improvement in academic achievement as measured by the API by all numerically significant pupil subgroups at the school or school district, including:

- (A) Ethnic subgroups.
- (B) Socioeconomically disadvantaged pupils.
- (C) English learners.
- (D) Pupils with disabilities.
- (E) Foster youth.

(F) Reclassified English learners. The inclusion of reclassified English learners in the API shall, at a minimum, be consistent with the manner in which reclassified English learners are included in the determination of adequate yearly progress, as required by

Section 6311(b)(2)(B) of the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.).

(3) (A) For purposes of this section, a numerically significant pupil subgroup is one that consists of at least 30 pupils, each of whom has a valid test score.

(B) Notwithstanding subparagraph (A), for a subgroup of pupils who are foster youth, a numerically significant pupil subgroup is one that consists of at least 15 pupils.

(C) For a school or school district with an API score that is based on no fewer than 11 and no more than 99 pupils with valid test scores, numerically significant pupil subgroups shall be defined by the Superintendent, with approval by the state board.

(4) (A) The API shall consist of a variety of indicators currently reported to the department, including, but not limited to, the results of the achievement test administered pursuant to Section 60640, attendance rates for pupils in elementary schools, middle schools, and secondary schools, and the graduation rates for pupils in secondary schools.

(B) The Superintendent, with the approval of the state board, may also incorporate into the API the rates at which pupils successfully promote from one grade to the next in middle school and high school, and successfully matriculate from middle school to high school.

(C) Graduation rates for pupils in secondary schools shall be calculated for the API as follows:

(i) Four-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be three school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (ii).

(ii) The number of pupils entering grade 9 for the first time in the school year three school years before the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was three school years before the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was three school years before the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(iii) Five-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be four school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (iv).

(iv) The number of pupils entering grade 9 for the first time in the school year four years before the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was four school years before the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was four years before the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(v) Six-year graduation rates shall be calculated by taking the number of pupils who graduated on time for the current school year, which is considered to be five school years after the pupils entered grade 9 for the first time, and dividing that number by the total calculated in clause (vi).

(vi) The number of pupils entering grade 9 for the first time in the school year five years before the current school year, plus the number of pupils who transferred into the class graduating at the end of the current school year between the school year that was five school years before the current school year and the date of graduation, less the number of pupils who transferred out of the school between the school year that was five years before the current school year and the date of graduation who were members of the class that is graduating at the end of the current school year.

(D) The inclusion of five- and six-year graduation rates for pupils in secondary schools shall meet the following requirements:

(i) Schools and school districts shall be granted one-half the credit in their API scores for graduating pupils in five years that they are granted for graduating pupils in four years.

(ii) Schools and school districts shall be granted one-quarter the credit in their API scores for graduating pupils in six years that they are granted for graduating pupils in four years.

(iii) Notwithstanding clauses (i) and (ii), schools and school districts shall be granted full credit in their API scores for graduating in five or six years a pupil with disabilities who

graduates in accordance with his or her individualized education program.

(E) The pupil data collected for the API that comes from the achievement test administered pursuant to Section 60640 and the high school exit examination administered pursuant to Section 60851, when fully implemented, shall be disaggregated by special education status, English learners, socioeconomic status, gender, and ethnic group. Only the test scores of pupils who were counted as part of the enrollment in the annual data collection of the California Basic Educational Data System for the current fiscal year and who were continuously enrolled during that year may be included in the test result reports in the API score of the school.

(F) (i) Commencing with the baseline API calculation in 2016, and for each year thereafter, results of the achievement test and other tests specified in subdivision (b) shall constitute no more than 60 percent of the value of the index for secondary schools.

(ii) In addition to the elements required by this paragraph, the Superintendent, with approval of the state board, may incorporate into the index for secondary schools valid, reliable, and stable measures of pupil preparedness for postsecondary education and career.

(G) Results of the achievement test and other tests specified in subdivision (b) shall constitute at least 60 percent of the value of the index for primary schools and middle schools.

(H) It is the intent of the Legislature that the state's system of public school accountability be more closely aligned with both the public's expectations for public education and the workforce needs of the state's economy. It is therefore necessary that the accountability system evolve beyond its narrow focus on pupil test scores to encompass other valuable information about school performance, including, but not limited to, pupil preparedness for college and career, as well as the high school graduation rates already required by law.

(I) The Superintendent shall annually determine the accuracy of the graduation rate data. Notwithstanding any other law, graduation rates for pupils in dropout recovery high schools shall not be included in the API. For purposes of this subparagraph, "dropout recovery high school" means a high school in which 50 percent or more of its pupils have been designated as dropouts pursuant to the exit/withdrawal codes developed by the department

or left a school and were not otherwise enrolled in a school for a period of at least 180 days.

(J) To complement the API, the Superintendent, with the approval of the state board, may develop and implement a program of school quality review that features locally convened panels to visit schools, observe teachers, interview pupils, and examine pupil work, if an appropriation for this purpose is made in the annual Budget Act.

(K) The Superintendent shall annually provide to local educational agencies and the public a transparent and understandable explanation of the individual components of the API and their relative values within the API.

(L) An additional element chosen by the Superintendent and the state board for inclusion in the API pursuant to this paragraph shall not be incorporated into the API until at least one full school year after the state board's decision to include the element into the API.

(b) Pupil scores from the following tests, when available and when found to be valid and reliable for this purpose, shall be incorporated into the API:

(1) The standards-based achievement tests provided for in Section 60642.5.

(2) The high school exit examination.

(c) Based on the API, the Superintendent shall develop, and the state board shall adopt, expected annual percentage growth targets for all schools based on their API baseline score from the previous year. Schools are expected to meet these growth targets through effective allocation of available resources. For schools below the statewide API performance target adopted by the state board pursuant to subdivision (d), the minimum annual percentage growth target shall be 5 percent of the difference between the actual API score of a school and the statewide API performance target, or one API point, whichever is greater. Schools at or above the statewide API performance target shall have, as their growth target, maintenance of their API score above the statewide API performance target. However, the state board may set differential growth targets based on grade level of instruction and may set higher growth targets for the lowest performing schools because they have the greatest room for improvement. To meet its growth target, a school shall demonstrate that the annual growth in its API

is equal to or more than its schoolwide annual percentage growth target and that all numerically significant pupil subgroups, as defined in subdivision (a), are making comparable improvement.

(d) Upon adoption of state performance standards by the state board, the Superintendent shall recommend, and the state board shall adopt, a statewide API performance target that includes consideration of performance standards and represents the proficiency level required to meet the state performance target.

(e) (1) A school or school district with 11 to 99 pupils with valid test scores shall receive an API score with an asterisk that indicates less statistical certainty than API scores based on 100 or more test scores.

(2) A school or school district annually shall receive an API score, unless the Superintendent determines that an API score would be an invalid measure of the performance of the school or school district for one or more of the following reasons:

(A) Irregularities in testing procedures occurred.

(B) The data used to calculate the API score of the school or school district are not representative of the pupil population at the school or school district.

(C) Significant demographic changes in the pupil population render year-to-year comparisons of pupil performance invalid.

(D) The department discovers or receives information indicating that the integrity of the API score has been compromised.

(E) Insufficient pupil participation in the assessments included in the API.

(F) A transition to new standards-based assessments compromises comparability of results across schools or school districts. The Superintendent may use the authority in this subparagraph in the 2013–14 and 2014–15 school years only, with approval of the state board.

(3) If a school or school district has fewer than 100 pupils with valid test scores, the calculation of the API or adequate yearly progress pursuant to the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.) and federal regulations may be calculated over more than one annual administration of the tests administered pursuant to Section 60640 and the high school exit examination administered pursuant to Section 60851, consistent with regulations adopted by the state board.

(4) Any school or school district that does not receive an API calculated pursuant to subparagraph (F) of paragraph (2) shall not receive an API growth target pursuant to subdivision (c). Schools and school districts that do not have an API calculated pursuant to subparagraph (F) of paragraph (2) shall use one of the following:

(A) The most recent API calculation.

(B) An average of the three most recent annual API calculations.

(C) Alternative measures that show increases in pupil academic achievement for all groups of pupils schoolwide and among significant subgroups.

(f) Only schools with 100 or more test scores contributing to the API may be included in the API rankings.

(g) The Superintendent, with the approval of the state board, shall develop an alternative accountability system for schools under the jurisdiction of a county board of education or a county superintendent of schools, community day schools, nonpublic, nonsectarian schools pursuant to Section 56366, and alternative schools serving high-risk pupils, including continuation high schools and opportunity schools. Schools in the alternative accountability system may receive an API score, but shall not be included in the API rankings.

(h) For purposes of this section, county offices of education shall be considered school districts.

(3) For use by charter schools to meet the requirements of Section 47606.5.

(b) The templates developed by the state board shall allow a school district, county superintendent of schools, or charter school to complete a single local control and accountability plan to meet the requirements of this article, the requirements of the federal No Child Left Behind Act of 2001 related to local educational agency plans pursuant to Section 1112 of Subpart 1 of Part A of Title I of Public Law 107-110, and the requirements of the federal No Child Left Behind Act of 2001 (Public Law 107-110) and Section 64001 related to the Single Plan for Pupil Achievement, including the requirements of Title III of the federal No Child Left Behind Act of 2001 (Public Law 107-110). The state board shall also take steps to minimize duplication of effort at the local level to the greatest extent possible.

(h) The adoption of a template or evaluation rubric by the state board shall not create a requirement for a governing board of a school district, a county board of education, or a governing body of a charter school to submit a local control and accountability plan to the state board, unless otherwise required by federal law. The Superintendent shall not require a local control and accountability plan to be submitted by a governing board of a school district or the governing body of a charter school to the state board. The state board may adopt a template or evaluation rubric that would authorize a school district or a charter school to submit to the state board only the sections of the local control and accountability plan required by federal law.

The state board shall also take steps to minimize duplication of effort at the local level to the greatest extent possible. The template shall include guidance for school districts, county superintendents of schools, and charter schools to report both of the following:

(1) A listing and description of expenditures for the 2014–15 fiscal year, and each fiscal year thereafter, implementing the specific actions included in the local control and accountability plan.

(f) The state board shall adopt the template pursuant to the requirements of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The state board may adopt emergency regulations for purposes of implementing this section.

(g) Revisions to a template or evaluation rubric shall be approved by the state board by January 31 before the fiscal year during which the template or evaluation rubric is to be used by a school district, county superintendent of schools, or charter school.

(h) The adoption of a template or evaluation rubric by the state board shall not create a requirement for a governing board of a school district, a county board of education, or a governing body of a charter school to submit a local control and accountability plan to the state board, unless otherwise required by federal law. The Superintendent shall not require a local control and accountability plan to be submitted by a governing board of a school district or the governing body of a charter school to the state board. The state board may adopt a template or evaluation rubric that would authorize a school district or a charter school to submit to the state board only the sections of the local control and accountability plan required by federal law.
